PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in web application development, REST APIs, database-driven systems, and responsive user interfaces. Skilled in React.js, JavaScript,Python, Java, SQL, MongoDB, HTML, and CSS. Knowledge of authentication, CRUD operations, database design, MVC architecture, API testing, debugging, and frontend-backend integration.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Databases: SQL Server, MySQL, MongoDB

Development: RESTful Web Services, API Integration, CRUD Operations, Authentication, Database Design, MVC Architecture

Tools: Git, GitHub, Visual Studio, VS Code, Postman

PROFESSIONAL EXPERIENCE

Software Development / Web Development *Hands-on Development*

- Developed web applications involving frontend development, backend business logic, APIs, database operations, and frontend-backend integration.
- Built backend functionality using Django and ASP.NET MVC, including authentication, CRUD operations, and database workflows.
- Created responsive interfaces using React.js, JavaScript, HTML5, CSS3, and Bootstrap.
- Worked with SQL Server, MySQL, and MongoDB for database design, queries, and application data management.
- Tested REST APIs using Postman and debugged application functionality and integration issues.

PROJECTS

Smart Agri Marketplace with Consultation System
Technologies: ASP.NET MVC, C#, SQL Server, JavaScript

- Developed a marketplace connecting farmers with agricultural shops for product discovery, ordering, and consultation.
- Implemented application workflows for authentication, product management, consultations, and orders.
- Designed SQL Server database models for farmers, shop owners, products, consultations, orders, and order items.
- Built responsive Razor interfaces for product search, product details, cart, orders, recommendations, and addresses.

Trading Journal and Performance Analytics Platform
Technologies: Django, Python, SQL, JavaScript

- Built a trading journal for recording trades and analyzing trading performance and risk-management metrics.
- Developed functionality for stop-loss, take-profit, risk-reward ratios, risk percentages, and profit/loss calculations.
- Implemented account balance calculations and a dashboard displaying performance curves, trade summaries, and win/loss data.

EDUCATION

Master of Science (M.Sc.) in Computer Science *2025 – Present*
Indira College of Commerce and Science CGPA: 8.3

Bachelor of Science (B.Sc.) in Computer Science *2022 – 2025*
Indira College of Commerce and Science CGPA: 7.95

Higher Secondary Certificate (12th) *2021 – 2022*
Dada Patil Mahavidyalaya, Karjat 68.33%

Secondary School Certificate (10th) *2019 – 2020*
Jagdamba Vidyalaya, Rashin 75.60%
